PROJECTS

- **Eductional Site:**  (May 2024 - May 2024)
Tech Used:
React.js , React-Component, Browser-API, HTML-CSS-JS, HTML-audio-Element.
Description:
During my internship at CredMarg Technologies Pvt. Ltd., I contributed to the development of an educational website using React.js. This project involved creating a comprehensive home page integrated with landing pages. Additionally, I implemented secure authentication methods, allowing users to sign in using Google accounts or through direct credentials, such as email ID and password.
- **SDFC Banking Application:**  (Oct. 2023 - Oct. 2023)
Environment:
HTML/CSS/JavaScript/MySQL/SpringBoot/JSP.
Description:
SDFC Banking Application is a complete web based and banking solution all the functions of a bank. The product has been developed using open, industry standard, proven technologies and high quality software engineering methodologies. SDFC Bank is highly parameterized to support constantly changing customer and regulatory requirement. The product truly leverages on web technologies and centralized database.
Deployment:
 - HTML, CSS and JavaScript for client side validation.
 - SpringBoot MVC for connecting database, mapping the JSP pages.
 - JSP files for backend and frontend code.
 - MySQL as a database.
